

Digipulse AirDrop + Referral

To be eligible to receive DGPT as part of the promotional campaign you must complete the following steps:

1. You must be a member of the main Digipulse Telegram channel up to the time of the DGPT distribution;
2. You must visit the campaign website <https://drop.digipulse.io> to trigger the Telegram bot and submit your e-mail address;
3. You must provide the bot with an Ethereum address that can accept ERC20 tokens;
4. Once the campaign has ended, you must confirm the Ethereum address with the Telegram bot to claim the DGPT.

You may be eligible to receive additional DGPT by referring other people to the promotion:

1. Telegram bot allows you to create a unique referral url which can be shared with others;
2. If the referred person joins the main Digipulse Telegram group as prompted by the bot AND completes all of the required steps to receive DGPT, you will be eligible to receive additional DGPT for each referral.;

The promotional campaign ends once the main Digipulse Telegram channel reaches 20 000 members.

Each participant that claims the DGPT within one week from the end of the campaign will receive 5 DGPT and additional 2 DGPT for each eligible referral

Most important things to note:

- The participant must be a member of the main Digipulse Telegram channel at the end of the campaign to receive any DGPT.
- The participant will receive the additional DGPT for referrals only if the person he/she has referred is a member of the main Digipulse Telegram channel at the end of the campaign AND he/she has claimed their respective DGPT.
- The participant will be notified by the Telegram bot at the end of the campaign and will have one week from the time of the notification to confirm their Ethereum address and claim the DGPT. After the end of this period all participants who haven't confirmed their Ethereum address will not receive any DGPT earned from participation in this promotional campaign.
- Campaign stops as soon as 20 000 members are reached in the main Digipulse Telegram group;
- Telegram bot will be the primary channel for communicating with the participants of the campaign. Any relevant information about the campaign will be posted through the bot.

Privacy information:

- A Node.js app with a custom Telegram bot will be used for user tracking.
